

Dear Valued Guests,

During these unprecedented times in our community and country, I want to take a moment to thank each and everyone one of you for the incredible support you have shown Benvenuto's during the COVID-19 crisis. Being an independently owned business, each of our locations depends on every valued guest. Your show of support for our small business, and the staff, has been nothing short of incredible. We kept almost all of our staff on and working and we are all very proud of that.

I also want to assure you that we will continue to maintain the highest levels of sanitation and safety at all locations. We increased all sanitation protocols from an already high level when this crisis started, and they are now standard procedures.

I would also like to thank you for your support as we fight product shortages and outages. As you see in the retail stores, many items are limited or out of stock. We are doing our best to maintain all of your menu favorites, and are confident we will transition back to 100% stock levels in the coming months.

Finally, I want you to know that we are looking at every product we use. We are looking at the supply chain for safety, trying to buy local as much as we can and we are also reviewing each item and increasing the quality to the best possible raw products if we are not already there. Being a scratch kitchen allows us to make fresh small batches and most importantly control the safety and the quality of the finished menu item. Our further attention to these details will help to improve our already great menu favorites.

Please feel free reach to out to me personally at [comments@benvenutos.com](mailto:comments@benvenutos.com) on any subject or suggestion about Benvenuto's. When I opened the first restaurant 25 years ago, I could get feedback at each table every day. It's a little harder now with so many great locations, but I invite each of you to please drop me a line on anything you would like me to know and I will personally reply or call when I get it.

Thank you again for helping local businesses succeed in an era overwhelmed with big companies and chains.

Brian Dominick
